MIPIM INFLUENCES AND ACCELERATES THE TRANSFORMATION OF THE BUILT ENVIRONMENT

BETTER PLACES

GREATER IMPACT

STRONGER BUSINESS

In crafting a unique urban festival during 4 days in Cannes, MIPIM influences and accelerates the transformation of the built environment.

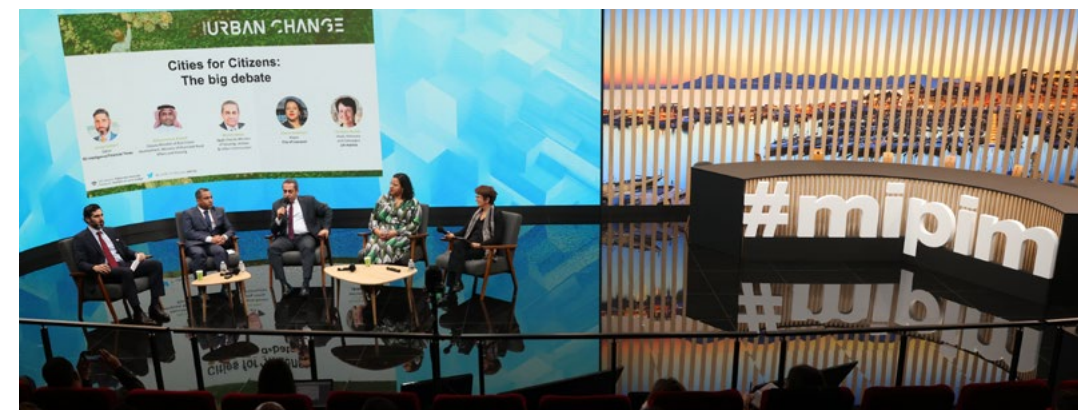

MIPIM is a catalyst for concrete solutions combining face to face discussions, thought leadership, development opportunities and global capital to drive change.

We connect and inspire the international real estate community to create more sustainable, liveable and prosperous places for all.

Our conferences programme has been developed with the support of Real Estate Balance to improve diversity and representation across the programme.
